

FROM ROADWAYS TO RUNWAYS: YVR CONSTRUCTION UPDATE

Between increased passenger traffic, summer festivals, Take-Off Fridays and a number of gateway construction projects, Summer 2013 is shaping up to be one of YVR's busiest yet. Here's a snapshot of the improvements underway at YVR this summer.

DESIGNER OUTLET CENTRE

YVR is partnering with McArthurGlen Group to build a Designer Outlet Centre on Sea Island, conveniently located steps from the Canada Line. Preliminary site work is underway, with a target opening of 2015. This regional destination will feature a variety of shops and services, plus an entertainment square, playground, restaurants and other amenities the entire community can enjoy.

FLIGHT PATH PARK

Flight Path Park is getting a new look and a new name. This favourite plane-spotting locale at the end of the South Runway is undergoing renovation this summer, and will reopen in September as Larry Berg Park – a tribute to our former CEO. A central plaza, new pathways and an elevated platform for the best aircraft viewing on the South side await the community.

SUMMER 2013 RUNWAY OPERATIONS

EVERY SUMMER, THE AIRPORT AUTHORITY CONDUCTS RUNWAY MAINTENANCE AND REPAIRS TO ENSURE WE'RE OPERATING A SAFE AND SECURE AIRPORT.

The North Runway will be used for departures and arrivals nightly while repairs are underway on the South Runway, from July 7 to August 30 between the hours of 9:00 p.m. and 7:00 a.m.

Limited North Runway departures will also occur over the summer to help reduce delays and congestion during peak travel periods, beginning this month through August 30.

RUSS BAKER WAY REPAVING

Over the summer months, we'll be repaving Russ Baker Way between Miller Road and Inglis Drive to ensure that it remains a safe and reliable roadway for our community.

This will mean reduced speed limits, closed cycling lanes and intermittent lane closures. Traffic lanes will remain open at all times, but we suggest that drivers allow for extra travel time if Russ Baker Way is part of your route.

More information on the project is available at www.yvr.ca

DOMESTIC TERMINAL UPGRADES

Part of the Airport Authority's 10-year, \$1.8-billion gateway plan to build a better YVR, construction on the Domestic Terminal's A & B gates continues. Once complete in 2015, the facility will offer passengers traveling with WestJet and other regional carriers renovated gates and hold rooms, new shops and restaurants and art and architecture inspired by B.C.'s Interior.
